

InterfaceNZ Re-Entry Uplift Contractor Responsibility

- 1. InterfaceNZ takes all financial responsibility from InterfaceNZ Depots in Auckland, Wellington & Christchurch to final recycling destination anywhere in the world.**
- 2. The Owner of the tile takes all financial responsibility in getting the tiles uplifted and delivered to InterfaceNZ depots in the right format (per instructions below).**
- 3. Where new InterfaceNZ carpet tile is being installed and old InterfaceNZ carpet tile is being recycled, then in prior discussions to the uplift, InterfaceNZ will set a price for the new carpet tile that incorporates the cost of uplifting, palletizing and taking the recycled carpet tile back to the depot – On average \$2/m².**

INSTRUCTIONS FOR UPLIFT OF CARPET TILE TO BE RECYCLED.

- Uplift Agent is to Call InterfaceNZ on 0800-800-656, a full 72 hours in advance to alert InterfaceNZ to the return of carpet tile for recycling. No Depot takes carpet tile back on Mondays or weekends. You must have your carriers name, date of return and depot that the carpet tile will be returned to.

IF NO ALERT IS PROVIDED, THE TRUCK WILL BE TURNED AROUND.

- Uplift agent to Supply export pallets in good condition with no broken, loose or missing boards.
- Uplift Agent to Supply quality shrink-wrap of pallet transport quality.
- Uplift agent to uplift the existing tile from the floor.
- Uplift agent to stack uplifted tile in neat piles of 4 tiles per layer and not re boxed. Each layer to be 1 metre square.
- Each pallet is stacked with 120 layers of tile equaling 480 tiles (120m²).
- Every 40 layers a tile is placed in the centre of the main stack to lock in the four independent tile stacks.
- Pallet height allows for 0.8mm per tile thickness - 120 layers x 0.8 = 0.96 metres.
- Uplift agent to shrink-wrapped the tiles onto the pallet in a manner that will provide strength to hold the tiles in position during transport.
